Skills Overview:

Art Direction & Design

Establish, standardize and implement the creative strategy and design process. Create visual design consistency, style guides and brand guidelines. Design and maintain information architecture, visual structure and design elements. Help lead the effort and idea generation for innovation with respect to business objectives.

Internet & Media Specialist

The internet and traditional media are fusing into one. With extensive experience in the online world, best practices, knowledge, research and creating the future of our field, I am in a position to help a company direct their focus and efforts to best suit the future of the combination of the internet and traditional media.

Online Marketing

With years of online and traditional marketing & advertising experience I have the ability to know what works and what fails. I can lead & direct a companies or clients' needs for exceptional performing online campaigns, from performance, technological to visual needs.

Computer Skills:

Software's -

Photoshop, Illustrator, In Design, Dreamweaver, CorelDraw

Languages-

HTML, CSS, OOCSS, bit knowledge of JavaScript & Ajax/JQuery

Online Portfolio:

Regarding my portfolio or rather say the sites which are currently live as mentioned, here are few points to say...

Web Design - Attractive, creative website interfaces designed with an emphasis on quality.

Logo Design - Your logo acts as first point of contact with customers and should adequately represent your business.

Business Card/Brochure Design - Experience with business card and brochure layout and design.

Typography - Taking care with typographic detailing ensures consistency with your brand image. Well-constructed typography can enhance the appeal and readability of your site.

Graphic Design - 16 years' experience using Photoshop and other image editing software.

SEO Techniques - Managing and implementing search engine optimization

Technology - Knowledge of HTML, CSS and JavaScript with an ability to prototype using these technologies.
